now in a thoroughly revised third edition public policy preferences and outcomes is designed to help students enrolled in a public policy course discuss policy issues and understand the ways in which public policy is grounded in normative theory this approachable book examines the role of political theory in the governance process and the effect of public opinion on policy priorities and government it introduces students to the tools of policy analysis and the most up to date policy theories in conceptualizing public policy in several major policy areas new to this edition a thoroughly revised and updated chapter on public policy models including new sections on the importance of science pluralism institutional analysis and development multiple streams the advocacy coalition framework the punctuated equilibrium framework policy diffusion and the constructivist approach new sections on health policy welfare economics and the public good the nuclear arms race the war on terrorism the quadrennial defense review contemporary policing techniques and issues and renewable energy restructured and rewritten sections on social policy and equality that includes sections on employment lgbtq rights and same sex marriage the legalization of marijuana and income inequality

assuming no prior knowledge of the subject and offering instructors a variety of ways to tailor the book to their classroom setting and course priorities public policy preferences and outcomes 3e is a highly flexible and effective teaching resource for introductory public policy courses at the undergraduate level and also serves as an ideal refresher book for students at the graduate level

robert w kaps examines air transport labor law in the united states as well as the underlying legislative and policy directives established by the federal government the body of legislation governing labor relations in the private sector of the u s economy consists of two separate and distinct acts the railway labor act rla which governs labor relations in the railroad and airline industries and the national labor relations act nlra which governs labor relations in all other industrial sectors although the nlra closely follows the pattern established by the rla kaps notes that the two laws are distinguishable in several important areas labor contracts negotiated under the rla continue in perpetuity for example whereas all other labor contracts expire at a specified date other important areas of difference relate to the collective bargaining process itself the procedures for the arbitration of disputes and grievances and the spheres of authority and jurisdiction to consider such matters as unfair labor practices congress established a special labor law for railroad and airline workers for several reasons because of transportation s critical importance to the economy an essential goal of public policy has been to ensure that both passenger and freight transportation services continue without interruption production can cease at least temporarily in most other industries without causing significant harm to the economy when transportation stops however production stops thus congress saw fit to enact a statute that contained provisions to ensure that labor strife would not halt rail services primarily because of the importance of air mail transportation the railway labor act of 1926 was extended to the airline industry in 1936 the first section of this book introduces labor policy and presents a history of the labor movement in the united states discussing early labor legislation kaps focuses on unfair labor practices and subsequent major labor statutes the second section provides readers with a comparison of labor provisions that apply to the railroad and airline industries as well as to the remainder of the economy the final section centers on the evolution of labor in the airline industry the author pays particular attention to recent events affecting labor in commercial aviation particularly the effect of airline deregulation on airline labor

number of exhibits 1 x005f x000d court of appeal case s a037042

this is a first rate book it draws on a wide range of reading philosophy economics and politics and teases out a number of important ideas for academics and postgraduates it surely will be essential reading and i think has pushed the study of public policy forward michael connolly political studies review in the dynamics of public policy adrian kay sets out the crucial methodological theoretical and empirical implications of two important trends in the social sciences a frequently expressed ambition for analysis of movies not stills and the regular observation that policy politics and governance is becoming more complex beginning with a discussion of the centrality of temporality change and history to the social sciences he develops the provocative claim that existing models of the policy process are of limited value in understanding and explaining policy dynamics instead the author argues that it is only through structured narratives that we can really understand and explain complex policy histories he sets out a methodology for structuring policy narratives and illustrates the claims of the book through four detailed case studies health policy and pharmaceutical regulation in the uk and agricultural policy and budget policy in the eu adrian kay s book will appeal to academics in the fields of policy analysis public administration and public sector management as well as political science and political theory
